

Clinical Studies Show Pantethine Promotes Healthy Blood Lipid Levels*

What is Pantethine?

Pantethine is a biologically active form of the B vitamin, pantothenic acid. Pantethine is found in most forms of life.

Pantethine is converted in the body into Coenzyme A and is involved in energy production. Pantethine also promotes healthy blood lipid levels.*

Why Choose Pantethine-Time?

As a water-soluble vitamin, Pantethine can be rapidly eliminated from the body. That is why Carlson specially formulated Pantethine-Time. It provides a gradual release of Pantethine over a period of up to 5 hours to promote continuous elevated blood levels of Pantethine to support superior results.

Each Tablet Provides:

Pantethine (from Pantestin™) . . . 300 mg
